Breakfast Blend

breakfast blend combines indonesian & latin american beans with french roast to create a blend with a strong, hearty flavor & with a lot of body & low in acidity. it is perfect for those who like the strength & flavor of french roast but demand something well rounded

French Roast

as our darkest blend, french roast is a blend of beans roasted to the darkest degree of roast where the beans begin to lose their inherent characteristics & the degree of roast becomes the major contributor to the flavor. french roast is characterized by an intense, smoky flavor, with a light body & very low acidity

Special Blend

this is a unique blend of african & indonesian beans. special blend can be characterized as a very rich, full bodied blend with a lot of depth & complexity in flavor. this makes it a good after dinner coffee to enjoy with dessert

Decaffeinated Special Blend (water Processed)

this is a blend of african & indonesian beans decaffeinated by a water process developed in switzerland, which is considered the most natural method of decaffeinating coffee. decaffeinated special blend is a hearty & full flavored blend, which is most unusual of water processed coffees
